DUAL-STOCK ARCHITECTURAL AUDIT & PROBABILITY BENCHMARK

Apsis Aerocom Limited (NSE SME: APSISAERO) vs. Concord Control Systems Limited (BSE: CNCRD / 543619) | Live Data: October 13, 2026 (20:35 IST)

Executive Multi-Domain Verdict: Concord Control Systems emerges as the mathematically superior allocation on institutional risk-adjusted parameters. While Apsis Aerocom exhibits pristine return ratios (ROCE 32%) in aerospace precision manufacturing, it trades at an extreme valuation multiple of **103x P/E (15.8x P/B)** with high customer concentration and SME liquidity friction. Conversely, Concord Control Systems trades at **61.2x P/E** backed by an extraordinary **Rs. 565+ Crore Kavach 4.0 order book** (representing 2.7x its trailing annual revenue of Rs. 210 Cr), higher institutional float, and an active technical breakout above its 50-DMA and 200-DMA.
