PORTFOLIO CONSTRUCT & INSTITUTIONAL ALLOCATION RULES

1. Equal-Weight Tranche Execution: Allocate in equal tranches of 3.0% to 3.5% across the top 20 names, with 2.0% in ranks #21-#30. Never concentrate >5% in any single micro-cap.

2. BSE Limit-Order Accumulation: Microcaps exhibit shallow liquidity on NSE. Always route limit orders via the primary 6-digit BSE Scrip Code to avoid execution slippage.

3. Mandatory Thesis Break Triggers (Written Exit Invariants): (a) Two consecutive quarters of negative OPM expansion; (b) CFO/PAT falling below 0.60 for two full fiscal years; (c) Promoter pledging rising above 5.0%; (d) Unannounced debt-fueled non-core acquisitions.
