4. Final Institutional Execution Directives

1. DYNAMIC CABLES (50% Allocation — TOP PICK): Deploy at CMP Rs. 405-415. Trades at 21.7x P/E with +33% sales growth and debt cut to Rs. 43 Cr. RSI 25.1 gives supreme margin of safety.

2. TAAL TECH (35% Allocation — SIP ACCUMULATION): Stagger limit orders at Rs. 960-1,000. Benefit from expanding 34% OPM and +41% revenue growth in high-barrier aerospace ER&D.;

3. FRONTIER SPRINGS (15% Allocation — PRE-FLY WATCH): Elite 50.6% ROCE, but hold back until brownfield capex goes live to resolve the 100% capacity bottleneck.

4. SHILCHAR TECHNOLOGIES (0% Allocation — STRICT AVOID): Do not touch until margins stabilize for 2 consecutive quarters. True run-rate P/E is 51.3x after OPM halved to 16%.
