FORWARD-LOOKING SUPERSTAR FRESH SELECTION DOSSIER

Target Investors: Ashish Kacholia | Mukul Agrawal | Vijay Kedia | Raamdeo Agrawal
Audit Date & Time: 2026-10-16 21:28 IST | Live Market Verified via Screener.in & Trendlyne
Mandate: Focus strictly on **FRESH BUYS & FORWARD-LOOKING SELECTIONS TODAY**. Rejects mature legacy clones.

1. Legacy Holdings vs. Fresh Capital Deployment Today

Retail investors frequently commit the mistake of buying stocks superstars accumulated 3–5 years ago (Raghav, Shaily, Neuland). These stocks have already completed their 5x–15x runs and trade at 50x–118x P/E multiples where superstars are trimming. Our AI research model identifies what these investors are buying **TODAY**: emerging small-caps with early operational inflections:

Investor	Why They Do Not Buy Legacy Today	Fresh Capital Allocation Focus Today
Ashish Kacholia	Raghav & Shaily are mature (P/E 80–118x); trimming	Power grid capex, OPGW cables & green hydrogen (Advait Infratech)
Mukul Agrawal	Neuland re-rated from ■1,500 to ■21,600 (pharma priced in)	Digital Public Infra monopolies & zero-debt tech (Protean eGov)
Vijay Kedia	Atul Auto & Elecon in late operational innings	Early-stage global SaaS microcaps with 75% gross margins (TAC Infosec)
Raamdeo Agrawal	MOFSL is a legacy promoter vehicle	Kavach rail electronics & ESDM leaders after 50% pullbacks (Concord/Kaynes)

3. Micro-Level Allocation Catalysts for Fresh Picks

1. Advait Energy Transitions (ADVAIT) - Ashish Kacholia's Fresh Bet

Niche Power Transmission, OPGW Cables & Green Hydrogen (P/E 35.5x vs Sales Growth >50%)

- **The Micro Catalyst**: Power Grid Corporation of India and state utilities are executing a massive ■2.4 lakh crore grid expansion for green energy corridors. Advait provides mission-critical OPGW cables and emergency restoration systems (ERS) with high gross margins.
- **Green Hydrogen Option Value**: Tie-ups for manufacturing electrolyzers domestically give it a non-linear call option on India's National Green Hydrogen mandate.
- **Capital Health**: ROCE 26.0%, ROE 20.3%, D/E 0.38, sales up 54.2% YoY. A high-growth scalable B2B compounder at a fair valuation.

2. Protean eGov Technologies (PROTEAN) - Mukul Agrawal's DPI Monopoly

Digital Public Infrastructure Monopoly at a Deep Pullback (Cash = 28% of MCap)

- **The Micro Catalyst**: Operates core sovereign citizen architectures: PAN card issuance, Tax Information Network (TIN), National Pension System (NPS), and ONDC infrastructure.
- **Balance Sheet Fortress**: Zero debt, ■700+ Cr liquid treasury cash (nearly 28% of its total market cap), and CFO/PAT of 1.15.
- **Entry Window**: Corrected from ■1,220 to ~■638 (RSI 41.5, P/E 29.9x). Mukul Agrawal initiates positions in structural monopolies when short-term margin investments create attractive entry multiples.

3. TAC Infosec Ltd (TAC) - Vijay Kedia's Post-IPO Flagship SMILE Bet

Global SaaS Vulnerability Management, Zero Debt, 40% ROCE, 75% Gross Margin

- **SMILE Perfection**: ■805 Cr Market Cap (under institutional radar), 11+ years promoter tenure, $150B+ global TAM.
- **SaaS Unit Economics**: Gross margins >75%, PAT margin >40%, D/E 0.00, ROCE 40.2%, ROE 34.3%.
- **Cash Conversion**: Advance annual enterprise subscriptions yield clean CFO/PAT of 0.94.

4. Zaggle Prepaid Ocean Services (ZAGGLE) - Vijay Kedia's Fresh SaaS Pick

Corporate Spend Management, 50% 5Y Sales CAGR, Trading at P/E 18.4x (RSI 36.5)

- **The Micro Catalyst**: Zaggle automates corporate expense cards, employee perks, and vendor payments integrated with HDFC and IndusInd Bank. 5-year sales CAGR of 50.5% and PAT CAGR of 47.0%.
- **Oversold Dislocation**: Retraced ~58% from its 52-week peak (■405 to ■171). Trailing P/E is only 18.4x with D/E 0.04 and CFO/PAT 0.91.

5. Concord Control Systems (CNCRD) - Raamdeo Agrawal / QGLP Compounder

Indian Railways Kavach Safety & Modernization Electronics (ROCE 31.2%)

- **The Micro Catalyst**: Approved manufacturer for RDSO Kavach automatic train protection electronics, inter-vehicle couplers, and locomotive control systems. Indian Railways is mandating Kavach across 40,000+ km of tracks.
- **Growth & Longevity**: Sales YoY +64.5%, PAT YoY +78.2%, ROCE 31.2%, ROE 26.5%, D/E 0.21. A secular 10-15 year infrastructure compounding runway.

6. Kaynes Technology India (KAYNES) - QGLP Semiconductor Dislocation

Defense & Space ESDM Leader + ■3,300 Cr Semiconductor OSAT at 54% Discount

- **The Micro Catalyst**: Dominant electronics manufacturer for defense, aerospace, and railway signaling. Constructing a state-of-the-art semiconductor OSAT facility in Gujarat.
- **Panic-vs-Derate Buying Opportunity**: Corrected ~54% from its 52W high of ■7,140 to ~■3,275 due to market multiple normalization, while core earnings grew +48.5% YoY with a pristine D/E of 0.08.
