Zero Phantom-Holding Policy: Hard-gated against retail distribution traps and phantom dilution

---

1. Executive Summary & Superstar Investment Frameworks

If top Indian super-investors were deploying capital in today's market, their selections would adhere to strict quantitative and qualitative filters to avoid capital traps. Blindly cloning 45-day-old filings leads to retail distribution traps. The following matrix formalizes their verified live frameworks:

Investor	Core Philosophy	Key Forensic & Quantitative Gates
Ashish Kacholia	Niche B2B Scalability & Operating Leverage	ROCE > 25%, OPM > 18%, D/E < 0.3, CWIP expanding into revenue
Mukul Agrawal	Aggressive Growth & Fundamental Inflection	3Y PAT CAGR > 40%, PEG < 0.8, Sales YoY > 30%, Turnarounds
Vijay Kedia	SMILE Archetype (Small size, Huge TAM)	MCap < ■2,000 Cr, Zero/Low Debt, CFO/PAT > 0.8, Founder skin
Raamdeo Agrawal	QGLP Compounding (Quality & Longevity)	ROE > 20%, 15Y Structural Runway, High Reinvestment Economics

3. Micro-Level Forensic Analysis & Allocation Catalysts

1. Raghav Productivity Enhancers (RPEL) - Convergence Pick

Superstar Alignment: Ashish Kacholia + Mukul Agrawal + Raamdeo Agrawal Network

- **Operational Moat**: Near-monopoly (~75% organized share) in high-purity quartz ramming mass for induction furnaces. Steelmakers cannot risk furnace lining failure over a low-cost consumable item.
- **Capital Efficiency**: Stellar 30.3% ROCE, 24.3% ROE, virtually debt-free (D/E 0.02). Cash conversion pristine (CFO/PAT 0.92).
- **Growth Trigger**: New Rajasthan greenfield plant operationalized, doubling capacity right as Indian secondary steel CapEx enters a multi-year upcycle.
- **Valuation Alert**: P/E 118x leaves no margin for execution errors. Position size appropriately.

2. Neuland Laboratories Ltd (NEULANDLAB) - Inflection & Dislocation Pick

Superstar Alignment: Vijay Kedia + Mukul Agrawal Overlap

- **Business Transition**: Shift from low-margin generic APIs to high-barrier Custom Manufacturing Solutions (CMS) for innovator pharma peptides.
- **Operating Leverage**: EBITDA margins doubled from ~14% to >28-30%. ROCE expanded to 28.2%, D/E lowered to 0.13.
- **Technical Dislocation Opportunity**: RSI-14 is currently 33.8 (oversold zone), presenting a classic Phase 179 Panic-Dislocation entry point after healthy profit taking.
- **Cash Flow Reality**: CFO/PAT at 1.08 confirms real milestone cash inflow without aggressive receivables.

3. TAC Infosec Ltd (TAC Security) - SMILE Archetype Anchor

Superstar Alignment: Vijay Kedia Anchor Holding (~15%)

- **SMILE Archetype**: Small cap (■805 Cr MCap), 10+ yrs promoter experience, global vulnerability management TAM ($150B+).
- **Pure Software Economics**: SaaS gross margins >75%, PAT margin >40%, Debt/Equity 0.00, ROCE 40.2%, ROE 34.3%.
- **Cash Generation**: Subscriptions billed upfront in USD/EUR yielding CFO/PAT of 0.94.
- **Global Growth**: Acquired CyberSafe; serving marquee clients across 50+ countries with zero equity dilution.

4. Shaily Engineering Plastics Ltd (SHAILY) - Precision B2B Pick

Superstar Alignment: Ashish Kacholia High-Conviction Core Manufacturing Holding

- **Medical Device Moat**: USFDA-approved cleanroom manufacturing of insulin pens and inhalers for global pharma giants.
- **Switching Costs**: 3–5 year validation cycle creates massive barriers to entry.
- **Balance Sheet Health**: ROCE 30.3%, ROE 28.2%, D/E 0.27. Historical CapEx is now monetizing into free cash flow.
- **Technical Health**: RSI-14 is 38.5, offering an attractive cooling-off entry window.

5. Ceinsys Tech Ltd (CEINSYS) - Deep Value & Turnaround Pick

Superstar Alignment: Mukul Agrawal Aggressive Alpha Holding

- **Valuation Asymmetry**: P/E 11.0x with 58.9% YoY revenue growth and 189% 3-year PAT CAGR (PEG ratio < 0.25).
- **Structural Theme**: Geospatial mapping, BIM, Jal Jeevan digital twins, and defense GIS contracts.
- **Zero Leverage**: Debt/Equity of 0.04 and ROCE of 32.8% provide robust downside protection.
- **Pullback Setup**: Retraced ~50% from 52W high (■1,461 to ■688) with RSI 44.2 in neutral consolidation.

6. Motilal Oswal Financial Services (MOTILALOFS) - QGLP Compounding Anchor

Superstar Alignment: Raamdeo Agrawal Master Firm & Promoter Allocation

- **QGLP Embodiment**: Quality governance, >20% structural earnings growth, multi-decade capital financialization runway.
- **Operating Leverage**: Asset and wealth management AUM inflows flow directly into incremental PAT.
- **Valuation Comfort**: P/E 32.2x backed by extensive treasury equity book and robust fee-based compounding.

4. Ghost Element & Phantom Exit Avoidance Protocol

A critical tenet of institutional-grade analysis is refusing to clone exited or deteriorating stocks:
- **Repro India**: Trimming by major investors and working capital drag triggers Phase 177 warning.
- **Balu Forge**: Extreme capital dilution and receivables lockup disqualifies it under Phase 170 rules.
- **Phantom Trap Rule**: When a superstar drops below 1.00%, our engine applies an automatic **-25 pt penalty** to prevent retail distribution entrapment.
