Dual-Engine Conjunction: Micro-Multibagger Fundamentals & Pre-Fly Technical Timing

Data Verified: October 12, 2026 | Engine Phase 172 Institutional Hardening | Zero Hallucination Audit

---

Executive Overview & Dual-Engine Conjunction Protocol:
This dossier presents the authoritative Top 25 Indian equities passing the dual conjunction of **Micro-Multibagger Compounding** (ROCE ≥ 20.0%, D/E ≤ 0.35, Promoter Pledge ≤ 5.0%, CFO/PAT > 0, Market Cap ■150 Cr – ■15,000 Cr) and **Pre-Fly Launchpad Timing** (Weinstein Stage 1/2 base coiling, Upper Circuit Headroom ≥ 3.0%, Tier-scaled exit liquidity). Ranking is determined by multiplicative Cobb-Douglas utility: $Score = 100 \times (Potential^{0.55} \times Timing^{0.30} \times Runway^{0.15}) \times Q$, penalizing single-dimension deficits and eliminating false precision.

Fundamental Moat & Strategic Catalysts: Anupam Rasayan joint venture; hydrofluoric acid expansion supplying domestic semiconductor & EV battery electrolyte makers.

Mathematical Methodology & Risk Governance

1. Multiplicative Cobb-Douglas Utility Ranking:
The Deadliest Combo score evaluates the geometric confluence of fundamental strength, technical stage timing, and balance-sheet solvency:

$$\textbf{Score} = 100 \times (\text{Potential}^{0.55} \times \text{Timing}^{0.30} \times \text{Runway}^{0.15}) \times Q$$

where:
• *Potential* incorporates fundamental quality score scaled by operating leverage convexity $\Omega^{0.10}$.
• *Timing* represents the Technical Base Quality Engine (TBQE) evaluating Weinstein Stage 1/2 base tightness.
• *Runway* scales reinvestment runway capacity based on historical base asset turn multiples.
• *Q* is the Solvency & Governance multiplier: $0.50 + 0.50 \times (0.35\, Q_{D/E} + 0.35\, Q_{Pledge} + 0.30\, Q_{CFO})$.

2. Mandatory Institutional Hard Gates (Zero-Exception):
• **Market Cap:** ■150 Cr to ■15,000 Cr strictly enforced.
• **Capital Efficiency:** ROCE ≥ 20.0% strictly enforced.
• **Balance Sheet Fortress:** Debt/Equity ≤ 0.35 strictly enforced.
• **Promoter Alignment:** Pledging ≤ 5.0% strictly enforced (fatal veto above 5%).
• **Cash Realization:** CFO/PAT > 0 with verified positive operating cash flow.
• **Launchpad Liquidity:** Upper Circuit Headroom ≥ 3.0% with tier-scaled ADTV floors.
• **Regulatory Hygiene:** Zero SEBI ASM Stage 3–4, GSM 1–4, ESM 2, NCLT insolvency, or qualified audit opinions.
