1. Executive Strategy: Mukul Agrawal Barbell Mechanics

Mukul Agrawal operates an aggressive **Techno-Funda Barbell Architecture**: **Pillar 1** targets high-growth micro/small-caps (■1,000–■15,000 Cr) with accelerating earnings (>30%), top-decile ROCE (>25%), low leverage (D/E < 0.35), and Stage 2 technical breakouts. **Pillar 2** targets large-scale consumable leaders (■10,000–■25,000 Cr) with global replacement moats where one-off M&A; transaction fees create transitory headline accounting dislocations.
