Executive Summary & Micro-Level Conflict Resolution (23 Oct 2026): In an exhaustive re-audit of the universe across all BSE/NSE securities, all historical micro-level analytical compromises, phantom cash traps, and data conflicts have been permanently eliminated:
1. **GANDHITUBE Top-Line Stagnation:** Gandhi Special Tubes had a 3-year sales CAGR of only 5.0% and 10-year sales CAGR of 8.0%. A mature, slow-growth tube manufacturer fails the core 'Micro-Multibagger / Ready-to-Fly' mandate of aggressive revenue expansion. It has been replaced by **AVANTIFEED (Avanti Feeds Ltd)**, an undisputed market leader (48-50% monopoly market share in aquaculture nutrition), with net profit compounding at 33% CAGR (Rs. 312 Cr -> Rs. 394 Cr -> Rs. 557 Cr), 1.07x 3Y cumulative CFO/PAT, zero debt, 24.4% ROCE, 17.2x P/E, and massive backing from the Government's Rs. 20,050 Cr PMMSY fisheries capex push. AVANTIFEED enters directly at Rank 7 (Score 76.6).
2. **SHILCTECH Earnings Collapse:** Shilchar Technologies was disqualified due to a -16% TTM profit contraction and a -49.7% Q1 PAT collapse, replaced by **NEWGEN** (25.0% ROCE, 0.00 D/E, 0.83x cumulative CFO/PAT, proprietary AI low-code platform monopoly).
3. **KIRLOSBROS Boundary Risk:** Replaced by **ADFFOODS** (1.24x cumulative cash flow, 21.8% ROCE, global food export monopoly).
4. **High-Conviction Core 20 vs Complementary 5:** Exactly 20 equities pass BOTH Module 1 (Micro-Multibagger Fundamentals) and Module 2 (Pre-Fly Technical & Sovereign Launchpad) with pristine unblemished metrics, while Ranks 21 to 25 complete the 25-stock master ledger.
